SUMMARY

High school junior with a strong interest in web development and hands-on experience in designing and creating responsive web applications through academic coursework and personal projects. Skilled in problem-solving, creativity, and collaborating with other team members. Seeking an opportunity to apply my technical skills, continue learning progressive web technologies, and contribute to real-world projects

EDUCATION

2025 - 2026

CENTER FOR ADVANCED
RESEARCH AND TECHNOLOGY

- Web Application Lab
- HTML, CSS, JavaScript

2023 - 2027

CLOVIS NORTH HIGH

- Honors Classes
- GPA: 3.8/4.0

TECHNICAL SKILLS

- AI Literacy (ChatGPT, Gemini, GitHub Copilot, etc.)
- CSS
- Figma
- HTML
- JavaScript

SOFT SKILLS

- Collaboration
- Communication
- Coordination
- Creativity
- Leadership
- Problem Solving Skills
- Public Speaking
- Time Management
- User Research

PROJECTS

Fresno Chaffee Zoo Prototype

October 2025 - January 2026

- **Coordinated** with 4 other team members to analyze 3+ enrichment tracking apps and **evaluate** their features and effectiveness
- **Synthesized** interview responses and conducted 2+ interviews to find actionable insights for the user flow to **solve potential problems**
- **Designed** 16+ low and 8+ high fidelity prototypes in Figma for 1 user flow, **collaborating** with other partners to get work completed on time
- **Presented** a live prototype demo at a showcase for 10+ people, effectively communicating overall design decisions and choices

CSS Zen Garden

September 2025 - October 2025

- Implemented a responsive **CSS** layout using 42 or more unique selectors to optimize styling efficiency
- **Designed** 9 distinct and original graphical assets, improving visual **creativity** and usability

PawPal Pet Wellness Tracker

October 2025 - November 2025

- **Collaborated** with another partner to design a pet wellness tracker, developing 40+ low and high fidelity wireframes in **Figma** to define user flows and main features
- Translated **Figma** designs into a web application using **HTML**, **CSS**, and **JavaScript** across 6+ web pages, strengthening **problem solving skills**
- Integrated **AI-assisted JavaScript** to build 3+ interactive features, reducing development time by 30% and demonstrating **AI literacy**

EXTRACURRICULARS

Clovis North Marching Band

August 2023 - June 2025

- **Facilitated** a section of 4 percussionists during the marching band season, winning 1st place multiple times in the 4A/5A division
- **Organized** and **executed** logistics such as equipment setup with 10+ staff and percussionists to enhance overall production quality
